Monday 30th August 2010

Crewe circular to Newcastle & Durham

behind classic Deltic locomotive - 'Royal Scots Grey'

Join us for a special, circular day out with 55022 "Royal Scots Grey" from Crewe to Newcastle. With pick ups at on The Wirral, Cheshire and Lancashire, we are offering a very interesting and highly scenic day out with exciting views of the ruggedly beautiful Cumbrian coast and a break in either Newcastle or Durham. The return journey differs vastly from the outward as the train returns to the WCML and set down stations via The ECML, Aire Valley and the "Little Lanky" between Hellifield and Carnforth.

Both Newcastle and Durham offer many sights and attractions to entertain and interest visitors. For Newcastle, the train will set down at The Metro Centre, where the retail space is measured in square kilometres and is a short train ride to "The Toon" where history sits comfortably next to the contemporary. Please note that the train picks you up again at Newcastle station. Durham is dominated by it's huge cathedral and castle which shadow other historic buildings and attractions; worth a visit for sure.

We are also offering a "mini" tour from Durham to Durham via Ferryhill, Norton curve, Hartlepool and Seaham for those already on board who wish to sample Deltic haulage over both traditional and freight lines, please see below for details. There may be an opportunity for the good folk of The North East to book this journey only; if so details will appear on our website.

Main Tour ONLY table with columns: Seating Type Required, Number, Price Each, Total Price. Rows include First Class, Standard Class (Adult), Standard Class (Child 5 to 15 years), and TOTAL A.
